Chesta Solanki

Greater Noida | chestasolanki664@gmail.com | +91-7455042260 | chestasolanki.tech | chestasolanki

Summary

B.Tech IT student and Full Stack Developer with hands-on experience building scalable web applications and LLM-powered solutions using React.js, Node.js, and MongoDB. Experienced in developing multi-agent AI workflows, structured LLM outputs, and personalized AI applications with a strong foundation in Data Structures and Algorithms and core computer science concepts.

Education

GL Bajaj Institute of Technology and Management *2023 – 2027*
B.Tech Information Technology - 8.13/10

Senior Secondary School - XIIth *2022 – 2023*
Central Board of Secondary Education - 88.6%

Secondary School - Xth *2020 – 2021*
Central Board of Secondary Education - 89.2%

Experience

Limetta *Freelance Full-Stack Developer*

- Built and deployed a full-stack luxury e-commerce platform using React 19, Node.js, Express.js, MongoDB.
- Integrated Razorpay, Delhivery, Resend, and ImageKit for payments, logistics, transactional emails, and media management.
- Developed JWT authentication, product customization, search, cart, wishlist, reviews, and order management.
- Built an Admin Portal for inventory management and real-time order tracking across fulfillment stages.
- Deployed the backend on AWS ECS/Fargate with Amazon ECR and the frontend on Vercel.

Skills

Programming Languages: C++, JavaScript, Python, SQL
Frontend: React.js, Tailwind CSS, HTML5, CSS3, SCSS
Backend: Node.js, Express.js, REST APIs
Artificial Inteligence: LLMs, LangChain, RAG, Prompt Engineering, Embeddings, Vector Databases
Databases: MySQL, MongoDB
Developer Tools: Git, GitHub, Postman, Docker, AWS

Projects

CareerPilot – AI-Powered Interview Preparation Platform *https://github.com/chestasolanki/CareerPilot.git*

- Developed an AI-powered interview preparation platform using a multi-agent workflow to analyze resumes and job descriptions, identify skill gaps, and generate personalized preparation plans.
- Implemented five specialized AI agents for candidate profiling, job analysis, skill-gap assessment, interview question generation, and preparation planning using LangChain and Groq (Llama 3.3 70B).
- Tech Stack: React.js, Node.js, Express.js, MongoDB, LangChain, Groq API (Llama 3.3 70B), Zod, JWT, Puppeteer.

CodeMesh — Real-Time Collaborative Code Editor & Compiler *https://github.com/chestasolanki/CodeMesh*

- Built a real-time collaborative coding platform using React, Monaco Editor, and Socket.io, featuring room creation/validation, live circular avatar presence tracking, in-room chat via Yjs Shared Arrays, and instant C++ code execution.
- Engineered conflict-free document sync using Yjs CRDTs and y-monaco, paired with a Node.js execution engine (g++) with 5s timeout protections, and containerized the full-stack app using a Multi-Stage Dockerfile for cloud deployment.
- Tech Stack: React.js, Node.js, Express 5, Monaco Editor, Yjs (CRDTs), Socket.io, Tailwind CSS, C++ (g++), Docker, AWS ECR/ECS

Certifications

- **OpenAI** – Apply AI at Work
- **AWS** – Cloud Foundations, Machine Learning Foundations
- **SkillUp** – Introduction to MERN Stack
- **Palo Alto** – Cloud Security Automation & Network Security Operations
